

Summary of the Disability Equality Scheme

Meadfurlong School is committed to fulfilling the requirement to increase the access to education for disabled pupils as indicated in the guidance given to schools by the DCSF.

A full copy of the scheme is available on request from the school office.

The scheme was reviewed in March 2008 by a group consisting of parents, governors, staff and children at Meadfurlong School. All members of the working party have an identified disability.

At Meadfurlong School we have high expectations for each and every pupil, including those with disabilities and will strive to remove barriers from all areas of school life, encouraging them to achieve their full potential.
